08:30-09:00 Registration  
Coffee and Pastries

Chair: Richard Gilbertson, CRUK Cambridge Centre Director

09:00-09:30 Introduction to CRUK Cambridge Centre Strategy  
Richard Gilbertson, CRUK Cambridge Centre Director

09:30-10:00 Early Detection of Cancer Programme  
Sarah Bohndiek, Early Detection of Cancer Programme

10:00-10:30 Integrated Cancer Medicine Programme  
Jean Abraham, Integrated Cancer Medicine Programme

10:30-11:00 Coffee Break

Chair: Kenneth Seamon, Director of Development and Collaborations

11:00-12:00 Centre Flash Talks  
*Studying the early stages of triple negative breast cancer development using scRNAseq*  
Karsten Bach, PhD Student, Breast Cancer Programme  
*Prioritisation of cancer therapeutic targets using CRISPR-Cas9 screens*  
Fiona Behan, Research Associate, Cell and Molecular Biology Programme  
*IL10RA Modulates Crizotinib Sensitivity in NPM1-ALK-positive Anaplastic Large Cell Lymphoma*  
Stephen Ducray, PhD Student, Paediatric Cancer Programme

# CRUK Cambridge Centre and Institute

## SAB Visit

*Optimization of cell-free DNA methylation analysis for cancer early detection*

Gahee Park, Research Associate, Early Detection of Cancer Programme

*Do immune cells affect the metabolic homeostasis of cancer cachexia?*

Michele Petruzzeli, Academic Clinical Lecturer, Pancreatic Cancer Programme

*Using nanomagnets for early detection of kidney cancer*

Jeroen Verheyen, Research Associate, Urological Malignancies Programme

12:00-12:45 Lunch

Friday 18<sup>th</sup> October  
CRUK Cambridge Institute

09:00-09:30 Registration  
Coffee, Pastries and Sausage Baps

Chair: Greg Hannon, CRUK Cambridge Institute Director

09:30-10:15 Keynote Talk  
*Restoring Tumour Suppression to Advanced Cancers*  
Scott Lowe, Chair, Cancer Biology & Genetics Program, Memorial Sloan Kettering

10:15-10:45 Coffee Break
